Regulations made under the Nationality & Naturalisation Act prescribing the form, security and issuance of the passport of the Sovereign Covenant State of Aletheia.

Regulation 1 — Standard

The passport of Aletheia shall be a machine-readable travel document conforming to ICAO Doc 9303, Part 4 (TD3 size), issued as an electronic machine-readable travel document (eMRTD).

Regulation 2 — Form and appearance

The cover shall be Covenant Burgundy and bear the national arms in gold foil, with the words "The Sovereign Covenant State of Aletheia" and "Passport" in the five official languages.

The data page shall be laser-engraved polycarbonate with a tactile surface relief, a ghost image and micro-text bearing the opening words of Article 1 of the Covenant.

Regulation 3 — Electronic chip

Each passport shall contain a contactless microcontroller of not less than 80 KB storing Logical Data Structure version 1.7, including Data Group 1 (machine-readable zone), Data Group 2 (facial image) and Data Group 3 (fingerprints).

Access to the chip shall be protected by Supplemental Access Control (PACE). Data Group 3 shall be protected by Extended Access Control and released only to inspection systems holding a valid document verifier certificate.

Regulation 4 — Public key infrastructure

The Country Signing Certificate Authority (CSCA) shall be operated by the Ministry of Foreign Affairs & Justice in hardware security modules certified to FIPS 140-3 Level 3.

The CSCA certificate and certificate revocation lists shall be published to the ICAO Public Key Directory and on the State Key Directory established by Executive Order 2026-14.

Regulation 5 — Validity and issuance

A passport is valid for ten years for adults and five years for persons under eighteen. Issuance requires in-person biometric enrolment before an officer of the Immigration Directorate or a consular mission.
