

OFFICIAL GAZETTE — TERRITORY & ENGINEERING

First Offshore Wind Concession Round Opened for Benedict State

Published

21 July 2026

Promulgating authority

Minister of Infrastructure & Energy

Expressions of interest invited for a 1.2 GW offshore wind array to anchor the sovereign clean grid.

The Ministry of Infrastructure & Energy invites expressions of interest from qualified developers for the first offshore wind concession off the Benedict coast.

Concession revenue flows to the Covenant Endowment rather than general taxation, consistent with the constitutional prohibition on personal income tax.

Evaluation criteria, bidder questions and the final award will be published in full in the Official Gazette.
