

OFFICIAL GAZETTE — EXECUTIVE DECREE

Establishment of the Public Cryptographic State Key Directory

Published

30 August 2026

Promulgating authority

Chancellor of the Sovereign Covenant State

Country signing root certificates to be distributed to international aviation and maritime border checkpoints.

Executive Order 2026-14 mandates public availability of the Country Signing CA (CSCA) root certificate to facilitate automated e-Gate passage for Aletheian passport holders.

The directory will also publish validator keys for StableChain state nodes and the signing keys of the Official Gazette, so any citizen can verify a decree independently.
